

HEALTH (HLTH)

HLTH 1003 Investigations in Health Careers (3 Credits)

Designed to assist students in meeting the expectations of a health care curriculum and career. Students will become familiar with the rigors of higher education and the specific skills needed to maximize their opportunity for academic and clinical success. The course will include a comprehensive overview of the duties and responsibilities associated with clinical competency. Interdisciplinary learning strategies, correlating clinical and didactic education, life management skills, work ethic and critical thinking skills necessary for all health providers will be emphasized.

Previous: Legacy Equivalent(s): HLT*103

HLTH 1015 Current Issues in Health Education (1 Credits)

course is a survey of current health issues and concepts. The student will learn principles of nutrition, communicable disease prevention, stress management, exercise, sexually transmitted infections (including HIV/AIDS) and other elements of lifestyle that affect health and be able to relate concepts learned to the National Health Education Standards.

Previous: Legacy Equivalent(s): HLT* 115

HLTH 1021 A Survey of Alternative Healthcare (3 Credits)

This course will introduce the student to alternative healthcare both alone and in conjunction with traditional allopathic (western) medicine. Students will examine the theoretical and philosophical foundations of a variety of alternative healthcare options and discuss their potential application.

Previous: Legacy Equivalent(s): HLT* 121

HLTH 1051 Health and Wellness Promotion (3 Credits)

This course will cover the concepts of health and wellness promotion as well as disease prevention and how they relate to the individual, the family, and the community. Topics include nutrition, exercise, teen pregnancy, and other social habits deemed harmful to an individual and/or community. Conditions such as sexually transmitted infections, cardiovascular disease, obesity, and diabetes will be discussed. Emphasis will be placed on education and developing programs and/or finding the proper resources for various populations.
