

COMPUTED TOMOGRAPHY (CAT)

CAT 0500 Computed Tomography Technician (0 Credits)

This comprehensive 21.5-hour course is offered to ARRT (American Registry of Radiologic Technologists) and/or NMTCB (Nuclear Medicine Technology Certification Board) certified technologists. Our course is designed to expand your knowledge of Computerized Tomography (CT) and will provide participants with the knowledge and practical skills to operate CT equipment safely and produce high-quality cross-sectional images. An on-site CT skills lab, as well as computer-based instruction, will be incorporated into the course to reinforce principles and procedures.
